## Profile

These are the things that I have learned from my experience in the field of education. I have learned that education is not just about teaching, but also about learning. I have learned that education is not just about knowledge, but also about skills. I have learned that education is not just about the classroom, but also about the world. I have learned that education is not just about the past, but also about the future. I have learned that education is not just about the individual, but also about the community. I have learned that education is not just about the present, but also about the future. I have learned that education is not just about the individual, but also about the community. I have learned that education is not just about the present, but also about the future.

2014 – 2018

Limerick Institute of Technology
